confirming that it meets both social and environmental compliance requirements, for the audited production site.

Confirmation of social compliance demonstrates that the supplier operates in accordance with Siplec's social policies. This confirmation was achieved with a "Good" rating on the social audit conducted under the BSCI (Business Social Compliance Initiative) guidelines.

Environmental compliance was achieved by the lifting of all non-compliances identified during the initial environmental audit and approved by an SGS certificate of compliance under the GSCP (Global Social Compliance Program), environmental section, level 1: Awareness & Compliance.

This compliance status with the "Responsible Sourcing" program is valid from 19/08/2015 until 20/05/2016.
